RACINGSPORTS

Horse Stats is a detailed form guide displayed in a table format which analyses a horses chance in an event based on a number of statistics and figures.

The table contains twelve month ratings for the horse itself, the trainer, prizemoney and strike rate ratings for the horses success over a certain distance, track and going.

Additional figures included with horse stats provide punters with an abundance of details to help assist them with selections in a race.

Factors such as the predicted degree of difficulty a horse will encounter at their upcoming start compared to their last run, expected position in running, winning distance range and more feature in the comprehensive HorseStats view at the race.

At the end of two panels worth of statistics, Horse Stats provides a computer generated FormScore rating which is done for both a horses career and last 12 months of racing.

The layout of HorseStats makes it easy to compare all the ratings of each horse to each other.

HORSESTATS EXPLANATIONS

TOP RACE HEADER INFORMATION

All strike rates shown as follows....

30⁶⁰₂₀

where 60 = In the money strike
rate (1st, 2nd or 3rd). 20 = Number of starts

30 = Win Strike rate

Race Name and Race Class, Prizemoney inc race start time

Strs	Number of starters
Uq W	Individual number of winners in race
No W12m	Number of individual winners in the last 12 months
Trat	Average of Trainer ratings for the race (Range 0-10, 10 = best)
Jrat	Average of Jockey ratings for the race (Range 0-10, 10 = best)
TCAR\$	Total Career earnings of all runners engaged
F\$st	Average prizemoney/start for full field
Sts	Total number of starts by all runners engaged (average number of runs per runner)
Wins	Total number of wins by full field (h = number of horses – average wins per starter) Field winning average
Dist	Total number of distance winners in field (h = number of horses – average wins per starter) Field average SR at Distance
Grp1	Total number of Gp1wins by full field (h = number of horses – average wins per starter) Field winning average at Group 1 level
ВТуре	Total number of Black Type wins by full field (h = number of horses – average wins per starter) Field winning average of Black Type races eg G1, G2, G3 or LR

Barrier Position and Favourite Information

W/P	W/P win and place percentage for each barrier position
Favourite Stats	Favourite Stats for last four meetings at today's course. Information shown Date of meeting/State of Track/number of favourites (=favs) (number of races) win SR and Place SR.

Northerly & Freemanson

GEAR CHANGES

Gear changes are display under the second table.

Only information that is known at time of publishing is displayed. You should always check official guides for the latest track conditions.

SECOND PANEL

SECOND PANEL	
TAB	TAB number
HORSE	Horse name
FORM L/S	Details of last run. Finish position, margin, Track, Distance, Class of race, State of Track (g,d,s,h). A * after class means horse featured in stewards report last run.
SP	Starting Price of last run (Dividend)
SP%	Last start race field spread eg percentage of field which finished within 6 lengths of winner eg 70 means 70 percent of the field finished within 6 lengths of the winner. The smaller the number the bigger the spread of the field at the finish.
DOD	Degree of Difficulty. Measures in kilos the class difference last start and today's race. Eg + 1.5 horse meets field estimated to be 1.5 kilos stronger. – 2 means horse meeting a field 2 kilos weaker than last run
Btrial	Details any barrier trial since last race start eg W-1200m a winner of 1200m trial
BPC	Change in barrier position from last run to today's run eg –3 means in 3 barrier positions compared to last run
WC	Change in handicap weight from last run to today's run, expressed in kilos (+ or -)
DC	Change in distance from last run to today's run in metres (+ or -)
DLS	Number of days since last run
RTC	Number of runs this campaign after a spell. (NB a spell is 63 days)
KmT	Number of kilometres travelled this campaign
FPLC	Details of same run from last campaign, where applicable. Eg if runner 5 th up, then details of 5 th up run last campaign are shown.
SRAC	Strike rate for all previous campaign runs as today's run. Eg if 5 th up then SR for all career 5 th up campaign runs shown
WTC	Number of wins this campaign
RTD	Number of runs this distance, this campaign
MIND	Minimum winning race distance in last 2 years if a maiden then have placed distance range eg - p1000
MAXD	Maximum winning race distance in last 2 years if a maiden then have placed distance range eg - p1400
BTDRY	Best race time for today's dist. (+ or – 50m) on a dry track in last 12 months
BTWET	Best race time for today's dist. (+ or – 50m) on a wet track in last 12 months
ESP	Average early speed (metres/second) of runner at this distance (+ or – 15%) in last 12 months. (NB. Fastest two early speed figures averaged.)
FSP	Average finishing speed (metres/second) of runner at this distance (+ or – 15%) in last 12 months. (NB. Fastest two early speed figures averaged.)
PACE	Expected position in running based on previous running styles for this distance (+ or -10%)
FOR	Number of runners this horse has beaten in last 12 months
AGST	Number of runners who have beaten this horse in last 12 months
ADV	Average Advantage figure. Shows + or - For/Against figure averaged over number of race starts. Eg. +2.5 means this horse on average beats 2.5 more horses home per run than beats it.
FCA	FormScore career. Computer generated figure taking into account full career form factors. This score varies depending on the quality of the field and can range from 200 to 800,
FR	FormScore Recent form. Computer generated figure taking into account recent form factors
FW	FormScore wet. Computer generated figure taking into account wet track factors
ML	Morning line expressed as a dividend. (Market set to 130%)
	- / /
